About

Balloon is a unique cryptocurrency token designed to bring positivity and uplifting energy to the world. It is built on the Fantom network, offering fast transaction speeds and low fees, and with a total supply of 21,000,000 tokens, balloon aims to create a community-driven project that focuses on spreading joy and happiness.

The concept behind Balloon is to create a cryptocurrency that has a positive impact on people's lives. Balloons are often associated with happiness, celebrations, and joyous occasions, and this is the spirit that Balloon aims to embody. Our logo is a simple white balloon with a green string, representing the connection between people and the joy of being together.

The Balloon community is made up of people who believe in the power of kindness and paying it forward. It is a space where people can come together to share their stories, offer support, and inspire one another. The community is inclusive, welcoming people from all walks of life, and it encourages everyone to spread joy in their own unique way.

Balloon isn't just any ordinary memecoin. It's a symbol of hope, positivity, and the power of community. Our catchphrases "balloooning" and "JustBalloooning" represent the idea that anything is possible if you just believe. The Balloon symbolizes the lightness of being, the freedom to float and explore, and the limitless possibilities of the future.

Balloon is not just a cryptocurrency token; it is a movement that aims to create a more positive and uplifting world. By using balloon, you can be a part of this movement and make a difference in your own way. We believe that positivity is contagious, and we're committed to sharing it wherever we go.

ERC-20 Balloon Contract

- Our contract was created from <https://openzeppelin.com/contracts> and has the following characteristics:
 - Imports an OpenZeppelin ERC20 template written in solidity
 - No Minting or Burning Functions
 - No Pausing of the contracts

Tokenomics

- All 21,000,000 balloon tokens were fair launched in a Liquidity Bootstrapping Pool (LBP) on beets.fi on February 19, 2023.
- There are 0 team tokens.
- Once our internal threshold of selling 6,000,000 tokens during the LBP approached, we closed the LBP on March 7th, 2023 with 15,019,102.47 tokens remaining and earning 3,857 wFTM tokens as liquidity.
- As promised during our LBP, each wallet holder will receive 50% of the number of tokens they purchased after the LBP ends, so, 2,990,448.76 tokens were airdropped to 41 different wallets.
- There were 12,028,653.71 balloon tokens remaining and 3,857 in wFTM liquidity raised from the LBP which were deployed to Spookyswap and Beethoven with 6,014,326.84 balloon tokens and 1,928 wFTM going to each.
